Extreme Trailpark lesson

This is a field with a lot of obstacles, not for jumping but for testing your horse's flexibility and trust in you.

It is good to test and train those obstacles because a lot of obstacles are like you can meet in the outside trails.

- ★ The (+/- 20+) obstacles are marked in different colors:
 - Yellow: easy
 - Orange: medium
 - Red: difficult
- ★ We prefer to do the obstacles first with the horse on a line, especially the red ones. So that you and your horse know that you are able to take that obstacle, before you sit on his back.
- ★ You are not allowed to do red obstacles sitting on the horse if you not did do them beside the horse!
- ★ The trainer decides which obstacles are suitable for the persons in the group
- ★ You help getting your own horse from the field, brushing and saddling the horse so you can get to know your horse. Of course we will explain and help where necessary.

Coaching with horses

Inner strength with horsepower

Horse Coaching individual

Personal development with the help of a horse.

- ★ Horses are masters in mirroring your feelings and thoughts and they can clarify things in your life or mind. It is one of the most effective methods for people to feel better.
- ★ We work with the unique scientifically supported method 'Cognitive coaching with horses' to create more horsepower in yourself and your life.
- ★ A horse coaching session can cause a big personal development, because people become aware of inner feelings or blockings or how the outside world sees them.
- ★ We start explaining the theory about horse coaching and we talk about your issue (the question/problem you want clearness about).
- ★ After that, we go to the paddock, where a horse is waiting for you. We will see how he reacts when you enter the paddock.
- ★ By doing little exercises with the horse and asking the right questions, we come closer to the essence of your issue. You are not riding the horse!
- ★ We are going to do exercises and give you a start or idea so you can do something with that you just learned in daily life. Through this, the horse coaching can be a 'life' lesson.
- ★ It takes 1-1,5 hour per session.

Price p.p.: Normally 1500 Sek per session 1h to 1½ hour Special price in 2019: **950 Sek**

Horse Coaching in a group

Is your team a good herd!?

- ★ To be safer, horses want to form a herd with your group. But that group has to feel safe before the horse wants to be with you.
- ★ We work with the unique scientifically supported method 'Cognitive coaching with horses' to create more horsepower in your group.
- ★ A horse coaching session can clarify the weak points of the group and together we will search for a solution to improve the team spirit and let the horse connect with your herd of colleagues.
- ★ We start explaining the theory about horse coaching and we discuss about the issue which the group encounters. Even without a clear issue in advance, the session will trigger special occasions.
- ★ After the explanation we go to the paddock, where a horse is waiting for your group and we will see how he reacts when you all enter the paddock.
- ★ By doing little exercises with the horse and asking the right questions, we observe quickly how the team is put together and what deserves attention. You are not riding on the horse!
- ★ We are going to do exercises and give you a start or idea so you can do something with that you just learned in daily life. Through this, the horse coaching can be a 'life' lesson.
- ★ We can offer 1,5 till 2 hours sessions or a 4 hours session included coffee/tea.

Horse riding program

★ Day 1

Sunday after 16.00h arrival at the ranch. We have diner with all the guest together followed by a guided tour around the ranch and a little introduction about the horses. We can also get to know each other a little bit better.

★ Day 2

Monday after breakfast we will go into the fields with the horses. We give a general explanation about how we treat our horses and how we want everyone else to treat our horses. You also get information about living in the herd, different characters and how you can enter the herd safely. We will introduce the horses to you, make contact with them and teach you how to respect their and your own space. After that we give you a horse that fits with you experience. You can brush your horse and then we work with the horses on the ground, you can call it horsemanship. Now everybody has a good foundation for the rest of the week. If all this is going well we go to our 'Extreme Trail Park' and do all kind of obstacles. We walk with the horses so they learn to trust you.

After the lunch, outside with the campfire, we will explain you how to saddle up a western horse and you get instruction in western riding. After that we do the 'Extreme Trail Park' under the saddle.

★ Day 3

Tuesday we're gonna make our first day trail. We will make a glorious trail through the wild forest around the ranch. We cross many small roads, a rocky river and a ruin. We have a nice picnic place at a little river to eat our self made lunch/picnic, which we took with us in our saddle bags. Of course we make a little fire. We ride back to the ranch through a little different route

★ Day 4

Wednesday morning you will get the basic explanation about Cutting (cut a calf from the herd). You get the opportunity to try it yourself at the cutting machine (a fake cow on lines which moves with a remote control). We have lunch at the ranch in the afternoon we make a short forest & mountain trail.

★ Day 5

Thursday you have a day off so you can do want ever you like. You can eat lunch at the ranch or make a picnic and go out for a day. After dinner we have a sunset trip with beautiful views over the river with hopefully a wonderful sunset.

★ Day 6

Friday we will make our last daytrail deep into the forest. We have lunch together and we make a fire to grill our sandwiches. The trail home is an exciting track with steep hills. The guide will show you the most wonderful view.

The last evening we have a party night with BBQ, nice music and a campfire, maybe even some dancing.

★ Day 7

Saturday after breakfast unfortunately it is time to go home again (before 11.00). We wish you all a good trip back home with a holiday you'll never forget!
